"...Talking Urban Entertainment to a Whole New Level!"

Founded in January 2003 **Blackopps Entertainment** has become the premiere Urban Entertainment Website in the Carolinas. Our company seeks to enhance the social nightlife of the Triangle area and provide online information regarding current and future entertainment events. **BLACKOPPS.COM** has service offerings including: A weekly email listing of 3,600+ members (list still growing), Our website receives a hit ratio of over 100,000 hits per week.

BLACKOPPS ENTERTAINMENT— features all the upscale urban entertainment events in the Triangle. We also feature major out-of-market events such as: “The Essence Music Festival”, “The Hampton Jazz fest”, Capital Jazz fest” and now the "Fridays at Sunset International Music Festival" in Richmond, Virginia.

Our goal is very simple...provide our viewers with entertainment options. Clubs, Plays, Concerts, Parties, Trips and More.

We have forged very strong relationships with several area promoters, venues and travel organizations to provide our viewers with information to the hottest concerts, parties, clubs, plays and trips in the Triangle. We are an early-stage company that is in the process of securing investment advertising for further growth. We have been profitable since the beginning, and we are expanding to provide more services to the entertainment market in the Triangle area. One indicator of our progress is that from early January 2003 start of 50 website hits per month, we now average over 100,000 per week.
